4 Production and Carving Skills

4.1 Preparation of Cakes

Aim:

To learn the skill of baking cakes.

Equipment Needed:

Oven, mixing bowls, ladles, pan, spatula, whisks, measuring cups.

Procedure:

Cake is typically a sweet, baked dessert. Most of the cakes are done using eggs to create that fluffy, cloud like texture. It is possible to replicate the spongy texture without the use of eggs by replacing eggs with mashed bananas, apple sauce, vinegar with baking soda and yogurt depending on the recipe.
