3. Draw a pattern on the melon, position the pattern so it covers most of the top surface of the melon, which is typically removed to create a bowl shape.
4. Cut along the pattern.
5. Remove the remaining rind
6. Hallow out the melon, remove all the flesh from the melon, and scrap inside surfaces so only the rind remains.
7. Fill the bowl with fruits and serve.

b. Apple Carving (Leaf shape)

Plate 4.16 **Apple Carving**

1. Wash the apple.
2. Cut a wedged shape slice as in the picture.
3. Trim away any of the core, leaving the flesh and skin.
4. With this carving knife, cut the slice to the shape of a leaf.
5. With the tip of the knife, make curving grooves in the skin to represent the veins of the leaf. Work from the base of the leaf to the tip.
6. Cut notches along the edges of the leaf.
