Digital Marketing

Digital marketing does promotional strategies by providing online display ads or direct marketing, to advertise other consumer-centric efforts. A business offering a free gift with purchase can use Facebook ads to promote the event or offer a coupon code to subscribers of an email list.

Customer Contests

Contests offer the customer a chance to win prizes like cash or store products. For example, an electronics retailer could hold a karaoke contest at its store, while using local celebrities as judges.

Attractive packaging

The packaging of products is one of the most important aspects of marketing. An attractive packaging design must make both a psychological and physical connection. So the product should look good and easy to identify for consumer convenience.

Students can prepare any two appropriate sales promotion techniques to sell a food product.

Result and Discussion
