Cover Charge

A cover charge is an entrance fee sometimes charged at bars, night clubs or restaurants. "Fixed amount added to the bill at a night club or restaurant for entertainment of service."

Plate 3.66 Laying the Cover

Laying the table cloth must be done by the following steps:

- Make sure that the table is well positioned.
- Pull the chairs away so that laying could be done easier.
- A molleton (silence pad) will prevent the table cloth from sliding, tempers noise of dishes and silverware against the table.
- Lay the ironed table cloth and napkin of correct size, colour (according to the theme).
- Unfold the tablecloth from the centre of the table out to the edges.
- Make sure the four corners of the tablecloth are of equal distance from the floor on each side of the table and the centre fold is exactly in the middle of the table.
- The correct side of the table cloth should be always up and centered on the table.
- Straighten the tablecloth if necessary with quick moves.
- Put on the table runner and make sure edges hang over.
- If placemats are used, then make sure the pattern is right side up and facing the guest, so the words in it can be read by them.
- Knives and spoons should be placed towards the right of the plate and all forks on the left except for the butter knife.
- The cutting edge of the knives should always face the plate except the butter knife.
- Napkins may be folded and kept ready earlier, so that layout process might be easier.
- A simple, but elegant napkin folding which does not require too much handling is ideal for restaurants.

Plate 3.67 Folded Napkin

- Cruet set should be placed on the top of the cover.
- Align the needed number of chairs, spaced evenly and leave enough space between them (20cm).
- Place a cover plate in front exactly to the middle of the chair. The edge of the plate should be two cm from the edge of the table.
