## Creating Circles

1. To draw a circle, select the **Ellipse tool** in the toolbox. The mouse pointer changes to a crosshair with a small ellipse beneath it.
2. Click on anywhere in the drawing area and hold down the **Ctrl** key while dragging the mouse pointer.
3. Release the mouse button where you like the end of the circle.

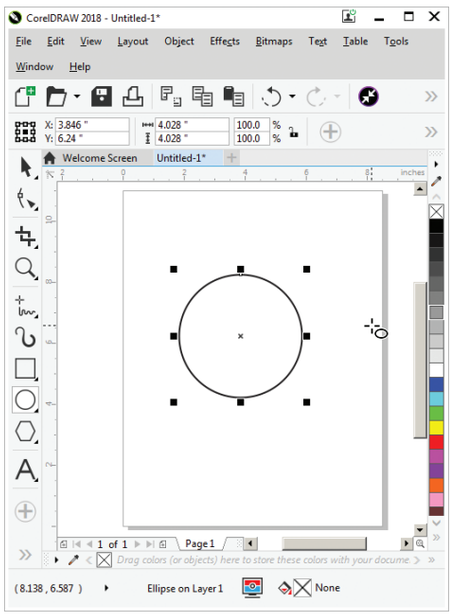

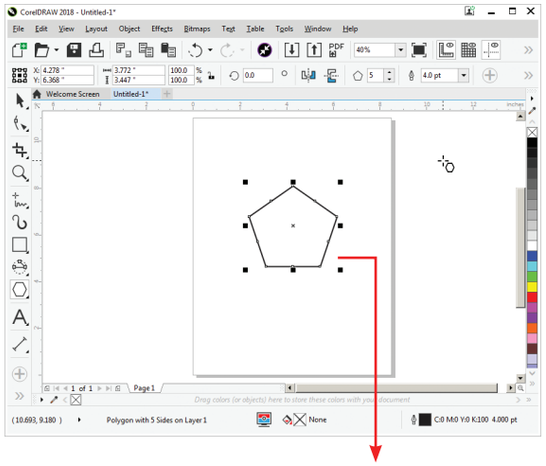

Fig.3.20 A Circle

## Creating Polygons

1. To draw a polygon (also known as pentagon: a five-sided figure), select the **Polygon tool** in the toolbox. The mouse pointer changes to a cross-hair with a small polygon beneath it.
2. Click on anywhere in the drawing area and drag the mouse pointer.
3. Release the mouse button where you like the end of the polygon.
4. To increase the number of sides of your polygon, select the polygon you have drawn using the Pick tool.
5. Place the mouse pointer on the Number of Points on Polygon text box and type the number of sides you like for you polygon.

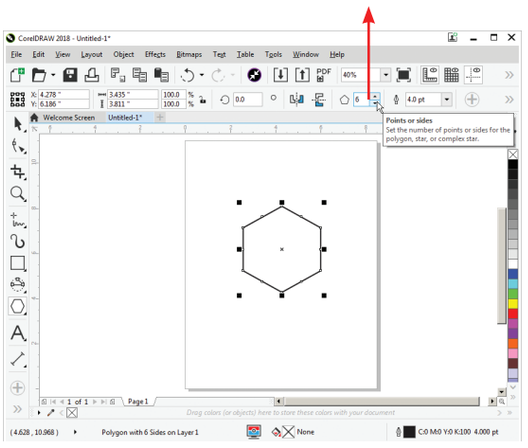

You can also set the number of sides for your polygon and then draw it.

Pentagon - a five-sided figure

## Creating Stars

Polygon tool has a small arrow in the lower-right corner of the tool. That little arrow indicates that this tool has a flyout.

To draw a star,

1. Click on the Polygon tool and hold down the mouse key. A flyout menu will appear showing you other tools.
