Deleting a Page

Sometimes you wish to remove a particular page from your document, you can do so by deleting that page from your document. If you are working on a multiple page document which contains more than three pages, you can delete a range of pages.

To delete a Page

1. Click on **Layout**. The Layout menu will appear.
2. Click on **Delete Page**.

   Delete Page dialog box will appear.
3. Type the page number you want to delete in the Delete Page box.
4. Click on OK button.

   The page will be deleted.
5. In case you want to delete multiple pages or a range of pages, type the number of first page in the Delete page box.
6. Enables the Through to page check box by clicking on it.
7. Type the number of the last page in the box beside the Through to page check box.
8. Click on OK button.
