5.5 Creating a new document

Before you can draw or animate in Flash, you need to create a new document. You can create a new document from the **Welcome Screen** or from the **File menu** at the top of the screen.

1. The Welcome Screen of the Flash is the launch pad for creating and opening files. It appears when Flash is first launched or when no documents are open in the application.

   From the Create New column in the middle of the Welcome Screen, click on ActionScript 3.0.
