5.12 Zoom Tool

This tool is used to zoom in (enlarge) and zoom out (reduce) the display size of any area of the stage. Thus, zoom Tool changes the magnification level of the object. Click on the Enlarge or Reduce modifiers present in the Options area to zoom in or zoom out the object respectively.

5.13 Hand Tool

When the stage is magnified, you may not be able to view the entire stage at once. The Hand Tool allows you to move the stage so that you can view the objects without changing the magnification level. It allows you to have a closer look at a particular portion of the object on the stage.

To use Hand Tool, follow these steps.

1. Click the Hand Tool on the Tools panel.
2. Click and drag the stage to the desired location. Note that the Hand Tool only moves stage and not the objects.
3. Release the mouse button.
