

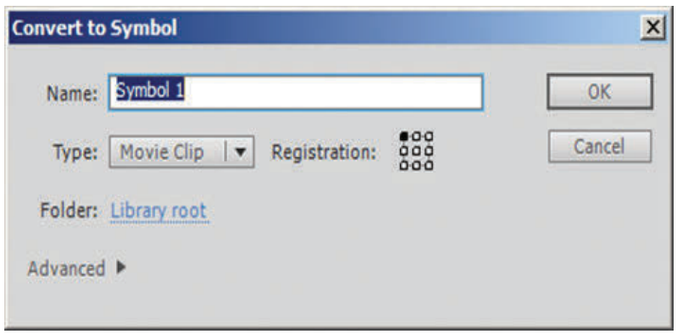

Figure 5.35 Convert to symbol dialog box

3. The new symbol appears in the Library panel. If the Library panel is not open, select **Window > Library**.
4. Click Frame 15 of Layer 1 in the Timeline.

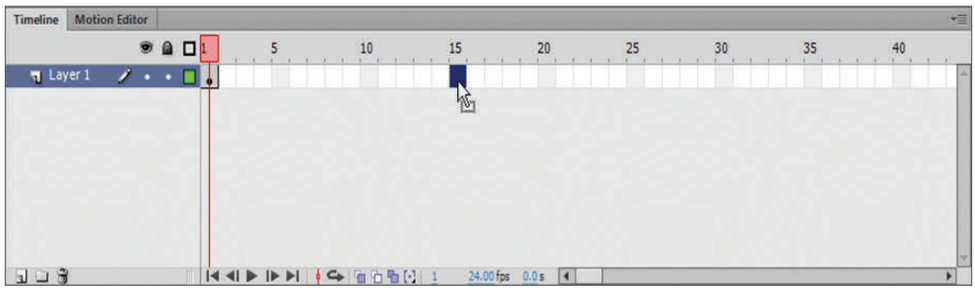

Figure 5.36 Selecting Frame 15 of Layer 1 in the Timeline

5. Select **Insert > Timeline > Frame**.

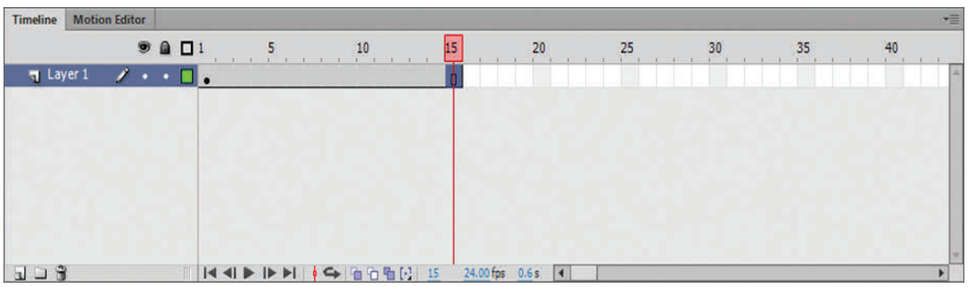

Figure 5.37 Frames inserted in the Timeline

6. With Frame 15 still selected, select **Insert > Timeline > Keyframe**. A keyframe is added in Frame 15. A keyframe is a frame where some property of an object is explicitly changed. In this new keyframe, you will change the the colour of the text symbol by selecting the colour drop-down list in the Color tab.
