Changing the display of the Ribbon

You can change the display of the ribbon by clicking the Minimize Ribbon button located at the top of it. The ribbon can be displayed in three different modes as shown below.

1. When you click the Minimize Ribbon button for the first time, the full ribbon changes to display tabs and panel buttons. Now hover the cursor over the panel buttons. The panel buttons expand to reveal all the tools shown on the full ribbon.

2. When you click the Minimize Ribbon button for the second time, the panel buttons change into panel titles. Now hover the cursor again over the panel titles to reveal each panel's tools.

3. When you click the Minimize Ribbon button for the third time, the panel titles change into panel tabs. Hovering the cursor over the panel tabs doesn't have any effect. Click the Home tab in the ribbon to reveal the full panel temporarily. It disappears after you move the cursor away.
