POINTSTOREMEMBER

- AutoCAD is a commercial computer-aided design (CAD) and drafting software application. It is developed and marketed by Autodesk.
- The drawing area covers the major portion of the screen. In this area, you can draw the objects.
- The command window at the bottom of the drawing area has the Command prompt where you can enter the commands.
- A workspace is defined as a customized arrangement of Ribbon, toolbars, menus, and window palettes in the AutoCAD environment.
- The LINE draw commands can be activated:
  - **a)** by selecting the icon from the Draw panel
  - **b)** from the menu bar with Draw >Line
  - **c)** by entering the command at the prompt line, e.g. LINE <R>
- After drawing two continuous lines by using the Line tool, the Close option is displayed at the Command prompt. The Close option is used to join the current point to the start point of the first line when two or more continuous lines are drawn. To choose the Close option, type the letter C at the Command prompt and press ENTER.
- While drawing a line, if you specify a wrong endpoint, then you can undo the last specified point and go back to the previous stage by using the Undo option of the Line tool. To use this option, enter U at the Command prompt and press ENTER.
- To cancel or exit a command, press the ESC (Escape) key on the keyboard.
- The ERASE command can be activated:
  - **a** with the ERASE icon from the Modify toolbar
  - **b)** from the menu bar with Modify >Erase
  - **c)** by entering ERASE <R> at the command line.

GLOSSARY

Left-click	Press the left-hand button of the mouse.
Click	Same meaning as left-click .
Double-click	Press the left-hand button of the mouse twice.
Right-click	Press the Right-hand button of the mouse – has the same result as pressing the Return key of the keyboard.
Drag	Move the cursor on to an object and, holding down the right-hand button of the mouse, pull the object to a new position.
