1.18 Drawing

There are so many drawing tools in PageMaker. **Line tool, Rectangle tool, Ellipse tool** and **Polygon tool** are four main drawing tools.

1.18.1 Drawing Lines

PageMaker has two Line tools. The first one creates a straight line at any orientation. The second is a constrained line tool that draws only at increments of 45 degrees. You can change the property of tools by double-clicking on them.

To draw a straight line

1. Select the Line tool from the toolbox. The cursor changes to a crosshair.
2. Click and drag on the screen to draw your line. As you drag, a line appears.
