2. 13 Working with Text

InDesign has two main type tools: **Type** and **Type on a Path**. The Type tool is used to create a rectangle text frame where you can store text in your document. The Type on a Path tool is used to add text along the inner or outer edge of a path. In addition to the type tools, you can also use the Frame tools—Rectangle, Ellipse, and Polygon—to add text to your document.

The **default font** is **Minion Pro Regular.**
