20. Snap To			Select a method for aligning objects on the page.
21. Options		Ctrl + J	Set your workspace preferences.
22. Application launcher			Start a Corel application.

Property bar

The property bar is next to Standard toolbar. It displays the most commonly used functions that are relevant to the active tool. Even though it looks like a toolbar, the property bar content changes depending on the tool or task.

For example, when you click the Text tool in the Toolbox, the Property bar shows only text-related commands like formatting, alignment, and editing tools.

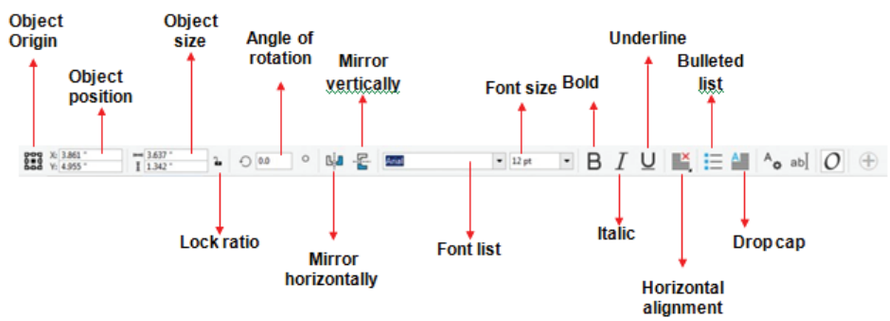

Fig. 3.11 Property bar

When you click the Rectangle tool in the Toolbox, the Property Bar shows only rectangle related commands.
