Maslow's Need Hierarchy Theory:

Abraham Maslow's Hierarchy of Needs theory hypothesized within every human being exists a hierarchy of five needs.

1. Physiological Needs - hunger, thirst, shelter and other bodily needs.
2. Safety Needs - security and protection from physical and emotional harm.
3. Social Needs - affection, a sense of belonging, acceptance and friendship.
4. Esteem Needs - internal factors such as self-respect, autonomy and achievement.

   External factors such as status, recognition and attention.
5. Self – actualization Needs - achieving one's potential and self fulfillment.

X & Y Theory:

X theory advocates that employees avoid work and responsibility. They must be controlled to achieve the organizational objectives. It completely excludes workers from the process of managerial decision-making and advocates manger knows best attitude.

According to Y theory if workers are properly motivated they would willingly accept responsibility and display creativity and imagination in their work performance.
