- **Income**

Income affects the selection of clothing. High income group spend more percentage of money on clothing as compared to low income group. They spend more money on fashionable garments rather than on durable clothes. People belonging to low income group prefer durable clothes rather than delicate ones. So, the preferences of the clothing changes according to the income of the family.

- **Occupation**

Many professions have a specific dress code which gives them a special identity. For example: People working in the hotel industry, airlines, traffic policemen, security guards, etc. Certain specialized activities require special apparel. For example: Special overalls are worn in the laboratory, during mixing chemicals for pest control by people or by those who work in nuclear power plants. They protect the workers against radiation hazards. Firemen wear apparel made of fireproof fabrics.
