4. What will happen if suspension system fails?
5. State the advantage of rubber Springs?
6. Classify the types of suspension system
7. State the types of air spring?
8. List out the types of shock absorber.
9. How leaf spring is mounted on a vehicle?
10. State the function of suspension system?

PART - C

Five mark questions

1. With the aid of neat sketch, explain torsion bar.
2. Draw any one type of leaf spring and indicate its parts.
3. State the advantage of air suspension.
4. Highlight the advantage and disadvantage of a coil spring.

PART - D

Ten mark questions

1. State the advantage and disadvantage of independent suspension system?
2. With the aid of simple sketch, explain the construction and working principle of shock absorber.
3. Explain with neat sketch, the principle of wishbone type suspension system.
4. With the aid of line diagram, explain the construction and working principle of air suspension system.
