c. Pinion
d. Coil

6. Which of the following is used to convert mechanical energy into electrical energy?
   a. Motor
   b. Generator
   c. Regulator
   d. Camshaft

7. The illumination is related to _____
   a. Light
   b. Sound
   c. Motion
   d. Temperature

8. The number of types of the ignition system is _____
   a. 2
   b. 3
   c. 4
   d. 5

9. The ratio of acid and water in an electrolyte solution is _____
   a. 1:3
   b. 3:1
   c. 4:1
   d. 1:4

10. The ignition coil is also called as _____
    a. Step up transformer
    b. Battery
    c. Spark plug
    d. Rotor

PART - B

Three marks questions

1. List out the various electrical system in an automobile?
2. State the use of condenser in an ignition system?
3. List out the advantages of an electronic ignition system.
4. Why spark plug is used?
5. List out the various types of starter motor drive mechanism.
6. What do you mean by ignition advance?
7. Write short notes on air conditioning?
8. Identify the reason for more noise in a generator?

PART - C

Five marks questions

1. Draw neatly and indicate the various parts of a battery.
2. State the difference between coil ignition system and Magento ignition system?
