Horizontal nail ridges can indicate B1 deficiency

Take a look at the picture below, showing horizontal nail ridges. When nails look this way, it's usually the result of a vitamin B1 deficiency.

Vitamin B_2

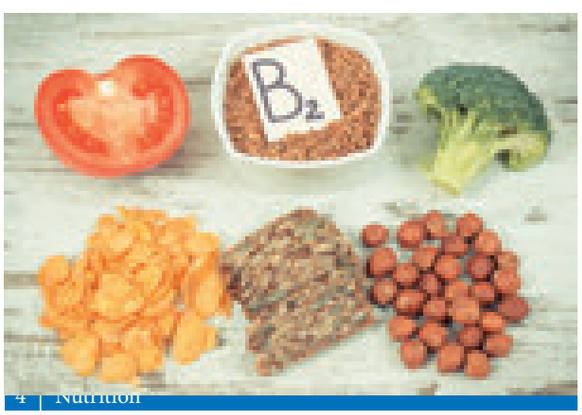

Vitamin B_2, also known as riboflavin, is one of the eight B-complex vitamins. It is essential for the health of skin and for normal vision.

Those suffering from migraines may find that taking doses of Vit B_2 may help. A study by the department of neurology of Humboldt University of Berlin found that those taking high doses of riboflavin had significantly fewer migraines.

Daily requirements: 0.6 mg/ 1000 Kcal

Sources

Riboflavin is found in eggs, nuts, dairy products, meats, broccoli, sprouts, wheat germ, wild rice, mushrooms, soyabeans, green leafy vegetables and whole grain and enriched cereals and bread. Riboflavin also synthesized by bacteria in intestine.

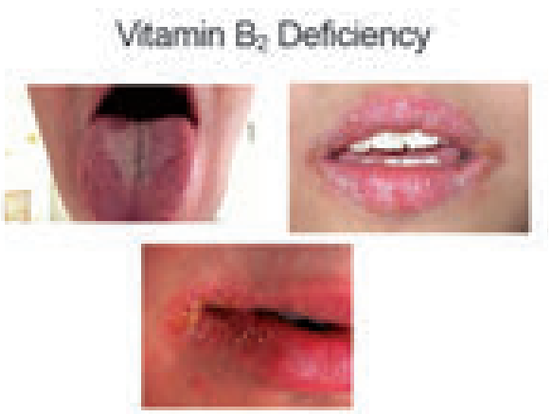

Functions

- It helps the body break down carbohydrates, proteins and fats to produce energy.
- It allows oxygen to be used by the body.

Deficiency Syndrome

- **Glossitis**- Ulceration of the tongue.
- **Angular stomatitis**- Cracks at the corner of the lips.
- **Corneal ulceration**

Vitamin B_3

Niacin is one of the B-complex nutrients; it can be synthesized in body.

Daily requirements: 10-15 mg

Sources

Found in appreciable amounts in liver, yeast, meat, legumes, peanuts and whole cereals.

Foods that are good sources of tryptophan are animal protein and vegetable protein.
