- Improves immunity
- Improves nervous system function
- Reduces muscle spasms, cramps and numbness
- Maintains proper balance of sodium and phosphorous in the body

## Deficiency Syndrome

Anaemia, nervousness, insomnia, oedema (Water retention), mental depression. Muscle weakness, tooth decay.

Arm and leg cramps, Skin lesions and skin disorder.

DO YOU KNOW?

Pyridoxine has been used to prevent or treat a certain nerve disorder **(peripheral neuropathy)** caused by certain medications **(such as Isoniazid).**

## Vitamin $B_7$

Otherwise known as Biotin. It is associated with carbohydrates metabolism.

**Daily requirements:** Traces

### Sources

Egg yolk, liver, kidney, tomatoes, vegetables, legumes and cereals.

### Functions

It is needed for protein and fatty acid synthesis

**Deficiency syndrome**: Dermatitis, hair fall.

DO YOU KNOW?

Chronic exposure to alcohol inhibits the absorption of biotin. Plasma biotin concentrations are low in 15% of people with chronic alcoholism.

## Folic acid

Vitamin $B_9$ includes both folate and folic acid and is important for several functions in the body.

**Daily requirements:** 0.4mg

### Sources

Fish, mutton, liver, egg, chicken, green leafy vegetables, pulses, lentils, beans, sunflower seeds, beets, broccoli, spinach, orange juice, tofu, fish, meat, fortified cereals, milk, cheese, eggs, oysters, crab etc.,

### Functions

- Folic acid helps the body to convert carbohydrates into glucose, which is used to provide energy.
- Folic acid helps in building of antibodies which prevent and heal infections.
- Regulates blood cells formation.

### Deficiency Syndrome

- A recent study connected folic acid deficiency with autism
- Megaloblastic anemia
