

FOETAL HEART SOUND

WEIGHT GAIN

URINE ANALYSIS

## Definition of Antenatal Care

- Antenatal care refers to the care that is given to an expected mother from time of conception is confirmed until the beginning of labor
- Antenatal care is systemic supervision of a woman during pregnancy at regular intervals to monitor:
  - Maternal wellbeing
  - Fetal wellbeing
  - Progress of fetal growth

## Goals of Antenatal Care

1. Ensure mother health
2. Ensure delivery of a healthy infant
3. Anticipate problem
4. Diagnose problem early

## Objectives of Antenatal Care

1. Early detection and if possible, prevention of complications of pregnancy.
2. Educate women on danger and emergency signs & symptoms.
3. Prepare the woman and her family for childbirth.
4. Give education & counseling on family planning.

## Schedule of Antenatal Care

- Medical checkup every four weeks up to 28 weeks gestation
- Every 2 weeks until 36 weeks of gestation.
- Every week until delivery
- An average 7-12 antenatal visits/pregnancy
- More frequent visits may be required if complications arise

## Importance of Abdominal Examination

- Monitor progress of pregnancy and fetal growth
