- Individualize teaching for breasts for breastfeeding
- Check the breasts for signs of engorgement (swollen, tender, tense, shiny breast tissue). If breasts are engorged and the woman is breast-feeding:
    - ➢ Allow warm to hot wet towel to cover the breasts and massage to improve comfort.
    - ➢ Express some milk manually or by breast pump to improve comport and make nipple more available for infant feeding.
    - ➢ Feeding the infant.
    - ➢ A mild analgesic may be used to enhance comfort

U: Uterine Assessment

Abdomen : Monitoring of involution process

- ❖ Check firmness of the fundus at regular intervals.
- ❖ Palpating the uterine fundus Firm or "Boggy" – not palpable by 10 days.
- ❖ Ask for "afterpains" (the pain occurs due to uterine contraction towards involution after delivery).

B: Bladder

- ❖ Observe for the woman's first void within 6 to 8 hours after delivery.
- ❖ Palpate the abdomen for bladder distention if the woman is unable to void or complains of fullness after voiding. a. Uterine displacement from the midline suggests bladder distention
- ❖ Instruct the woman to void every several hours and after meals to keep her bladder empty.

B: Bowels

Bowels in shock just moved into some strange positions. So plenty of fiber , fluids and Take a stool softener- to avoid harm to the episiotomy or trauma to the C-section incision

L: Lochia

Inspect the perineum regularly for frank bleeding.

- ❖ Note color, amount, and odor of the lochia.
- ❖ Count the number of perineal pads that are saturated in each 8 hour period.
- ❖ Calculate the amount of bleeding
- ❖ Check for lochia (vaginal discharge after delivery)

The Characteristics of Lochia

LOCHIA

TYPE	COLOR	DURATION	COMPOSITION
Lochia Rubra	Red	1-3 days	Blood, fragments of decidus mucus
Lochia Serosa	Pink	3-10 days	Blood, mucus and leukocytes
Lochia Alba	White	10-14 days	Largely mucus

E: Episiotomy and Perineum

Assess perineal incisions (episiotomy wound) for signs of infection and healing by REEDA Assessment

- ➢ R: Redness
- ➢ E: Edema
- ➢ E: Ecchymosis
- ➢ D: Discharge
- ➢ A: Approximation
