

the place in an organization. E.g., a lack of supervision or training or policy.

- **Personal Barriers:** It is due to psychological problems of individuals. E.g., lack of motivation or dissatisfaction in work.
- **Ambiguity of words/Phrases:** Words sounding the same but having different meaning can convey a different meaning altogether. Hence the communicator must ensure that the receiver receives the same meaning.
- **Individual linguistic ability:** The use of jargon, difficult or inappropriate words in communication can prevent the recipients from understanding the message.
- **Physiological Barriers:** These may result from individual's personal discomfort, caused by ill health, poor eyesight or hearing difficulties.
- **Bypassing:** This happens when the communicators (sender and the receiver) do not attach the same symbolic meanings to their words.
- **Cultural Barriers:** Strong beliefs, customs, attitudes, religious, sentiments, illiteracy may influence communication.
- **Fear of being criticized:** This is a major factor that prevents good communication.
- **Gender Barriers:** Most communicators show a difference in thought, often have a set of agenda. This is noticeable among the different genders.
