11.1 GUIDANCE

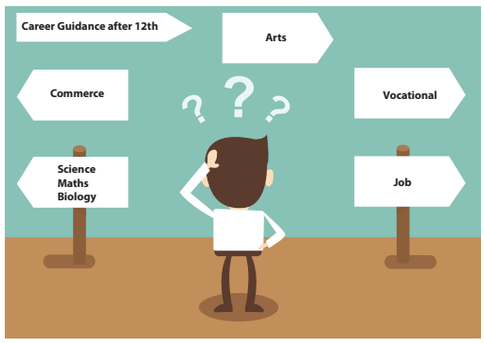

Guidance means to "direct", "to point out", and "to show the path".

Guidance is providing some help or assistance to an individual by another expert individual.

Guidance is designed to assist a person to decide where he wants to go, what he wants to do, or how he can best accomplish his purpose; it assists him to solve problems that arise in his life. It does not solve his problems, but empowers him to solve them.

The focus of guidance is the individual, not the problem; its purpose is to promote the growth of the individual in self-direction. This guidance can be given to groups or to individuals, but it is always designed to help each individual even though they may be in a group.
